ALFRED E. BEACH,

Editor of the People's Journal, Patent Agent, &c., No. 36 Nassau street, New York. THE PEOPLE'S PATENT OFFICE

PROSPECTUS OF THE NORTH CAROLINA STATESMAN. THE undersigned propose, on the first day of January next, at Raleigh, North Carolina, to begin the publication of the North Carolina Statesman, a semi-weekly and weekly paper; devoted to politics, news, and miscellaneous subjects, and respectfully solicit for it a share of the patronage of the democratic party, their friends, and the public

of the democratic party, their friends, and the public.

Invited by many leading persons of the State rights republican party to propagate and defend principles which we have always held, and regard as the only basis of prosperity in our form of government, and inspired with a sincere desire to serve that party and advance its interests, we propose to issue a paper at the seat of the State government. In the field of editorial enterprise, there is ample room for those who are now holding position, as well as for others, who choose to enter into fair competition. The propagation of the principles of our party is a duty at once important, and to us peculiarly agreeable. The attractions of the editorial profession and its honorable toils, together with a desire to extend its influence, has had much weight in the decision which we have made—a profession at once dignified and elevated, where the highest intellectual gifts may find full employment, and the purest patriotism make contribution to the public weal. We are persuaded that a journal, conducted with fairness and discretion—uninfluenced by selfishness and devoted to principle, may secure sufficient patronage, without interfering with the claims or rights of any now prosecuting the same great work.

Although mainly deveted to the discussion of such political questions, as they arise, which affect the welfare of North Carolina, whether relating to the federal or State governments, or such local interests as may be of importance, it is nevertheless intended to make the Statesman a medium of general intelligence. Accordingly, the state of the markets in the principal cities, to which sur commerce goes, shall be fully and accurately reported; nor will the attention of the conductors be less addressed to the subject of internal improvements, as a means indispensable to the development of the mineral and agricultural resources of the State. These interests, of primary importance, shall always command their fullest attention. To this they propose to avail themselves Invited by many leading persons of the State

The general objects of the proposed paper being thus clearly indicated, it may not be amiss briefly to state the particular views which are to be sustained by it as a political journal.

1st. Our purpose being to publish a paper purely democratic, according to the straightest requirements of that party, we shall advocate strict party organization in its fullest and most comprehensive sense; an organization which originates in the popular will, expressed by the people in their primary assemblies, and which has been so successfully introduced among the democracy of many of the ether States, by which the rank and file of the party are, in fact, those who indicate its decisions, and, being all brought into action, express their will imperatively; thus, by open and fair dealing, commanding respect and obedience; an organization of the people, and not of intriguers; restoring power to those whe, by sufferance, have tolerated its temporary usurpation.

2d. The democratic party shall always find in us advecates of their right to select their standard bearers, and to command acquiescence in decisions made by conventions fairly elected in their primary meetings. Standing upon the good eld State rights platform of '95, we shall oppose government corporations created by Congress for the purpose of internal improvement, the regulation of finance, or any other measure inconsistent with the rights of the States.

3d. Believing that the platform adopted by the

of the States.

3d. Believing that the platform adopted by the 3d. Believing that the platform adopted by the late Baltimore convention contains the democratic creed, they expect cordially to sustain the present administration, trusting that the policy adopted by those who compose it will be regulated by the cardinal doctrines of the American democracy.

4th. They will advocate all such measures of internal improvement as promise by judicious prosecution to promote the interests of the people and diffuse the benefits of a system already enjoyed by portions of the State.

cution to promote the interests of the people and diffuse the benefits of a system already enjoyed by portions of the State.

5th. The disposition of the public lands being a question of the most absorbing interest, we believe it should be at once met and settled. The unjust and unequal legislation of Congress, in relation to those lands, and the large and frequent appropriations made to the new States, indicate a final departure from the old and wise policy of appropriating the proceeds of their sales to the payment of the public debt, and the expenses of the government. It has for some time ceased to be either a subject of hope or expectation that there will ever be a return to a policy which had so much to recommend it. Believing that this system of squandering and prodigality is not only to continue but to grow worse, we shall pretest against it, and assert the right of the old States to their equitable share of the lands which remain. The power "to dispose of the public lands being explicitly declared in the Constitution, the exercise of that power is a question of policy, both as to the time and the mode." Believing, as we do, that it has become the settled policy of Congress to squander the public lands, we adopt the patriotic language of Mr. Dobbin, and say that "all of North Carolina's sons, both whigs and democrats, should protest, and demand North Carolina's share of the public domain."

6th. Approving of the sentiments of the inaugural of the President, we shall oppose the acquisition of Cuba or any other foreign territery, unless such acquisition be in accordance with existing treaties, and entirely consistent with the national honor.

Terms.—For the semi-weekly, \$4 per annum;

Mr. Lyort respectfully suggests to his friends that while much has been done to transmit family records, little care has been taken to preserve parental likenesses. He takes this method to inform his friends, and these desirous of perpetuating personal remembrances, that daguerreetype likenesses can be inlaid on the inside covers of family bibles, presentation-books, or keepsakes, specimens of which can be seen at his bindery, or he can be addressed by letter, which will be promptly itended to. DR. MORSE'S INVIGORATING CORDIAL,
A Phenomenon in Medicine.—Health Restored and Life Lengthened, by Dr. Morse's Invigorating Elixir or Cordial.

stored and Life Lengthened, by Dr. Morse's Invigorating Elixir or Cordial.

A Trist the properties attributed to Professor Morse's Invigorating Elixir or Cordial were deemed fabulous. The public often deceived could not believe the simple and sublime truths announced by the discoverer. But facts, undeniable facts, attested by witnesses of the highest class and character, are now triumphing over all doubts. Incredulity is overthrown by a mass of testimony which is perfectly irresistible.

The Elixir remedies in all cases the deplorable evils arising from a misuse of the various organs which make up the wonderful machine called man. It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind, necessary to the reproduction of human life. To persons of feeble muscular frame, or deficient in vital power, it is recommended as the only means of communicating that energy which is necessary to the proper enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The feeble girl, the ailing wife, the listless, enervated youth, the over-worn man of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of a single organ, will all find immediate and permanent relief from the use of this incomparable renovator. To those who have a predisposition to paralysis, it will prove a complete and unfailing safeguard against that terrible malady. There are many, perhaps, who have so trified with their constitutions, that they think themselves beyond the reach of medicine. Let not even these despair. The Elixir deals with disease as it errists, without reference to causes, and will not only remove the disorder itself, but

The derangements of the system, leading to nervous diseases, and the forms of nervous diseases, and the forms of nervous diseases itself, are so numerous that it would require a calumn to enumerate the maladies for which this preparation is a specific. a calumn to enumerate the maladies for which this preparation is a specific. A few, however, may be enumerated, viz: neuralgia tic-doloureux, headache, incipient paralysis, hysteria, palpitation of the heart, spinal affections, muscular debility, tremors, fintulence, a pricking sensation in the flesh, numbness, torpidity of the liver, mental depression, weakness of the will, indisposition to move, faintness after exercise, broken aleep, and terrifying dreams, inability to remain in one place or position, weaking of the procreative organs, sexual incompetency, melancholy, monomania, fluor albus, sinking at the stomach, female irregularities, a chronic tendency to miscarriage, emaciation, and all complaints growing out of a free indulgence of the passions, and all barrenties that does not proceed from organic causes beyond the reach of medicine.

Whenever the organs to be acted upon are free from malformation or strictural diseases, it is averred that

Will replace weakness with strength, incapacity
with efficiency, irregularity with uniform and natural activity, and this not only without hazard of
reaction, but with a happy effect on the general
organization. Bear in mind that all maladies,
wherever they begin, finish with the nervous system, and that the paralyzation of the nerves of
motion and sensation is physical death. Bear in
mind, also, that, for every kind of nervous disease
the Elixir Cordial is the only reliable preparation
known.

CURE OF NERVOUS DISEASES. CURE OF NERVOUS DISEASES.

No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the diseased, debilitated, and shattered nervous system, whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once braced, revivined, and built up. The mental and physical symptoms of nervous disease vanish together under its influence. Nor is the effect temporary; on the contrary, the relief is permaent, for the cordial properties of the medicine reach the constitution itself, and restore it to its normal condition. Well may the preparation be called the

MEDICINAL WONDER Of the nineteenth century. It is, as the first scientific man in the world would have admitted that miracle of medicine heretofore supposed to

have no existence.
A STIMULANT THAT ENTAILS NO RE ACTION.

Its force is never expanded, as is the case with opium, alcoholic preparations, and all other excitants. The effect of these is brief, and it may well be said of him who takes them: "the last state of that man is worse than the first." But the Elixir is an exhilarant without a single drawback—safe in its operation, perpetual in its happy influence upon the nerves, the mind, and the entire organization; it will also remove depressions, excitement, a tendency to blush, sleeplessness, dislike of society, incapacity for study or business.

Miscellaneous.

IN VIGORATING CORDIAL,

PURELY Vegetable in its composition. Italis invaluable Cordial is extracted rom Herbs and Roots, which have been found after years of experience, by the most skillful physicians, to be nossessed of qualities the most beneficial in the diseases for which it is recommended; and hence, whilst it is presented to the public as an efficacious remedy, it is also known to be of that character on which reliance may be placed as to its safety. In cases of Impotency, Hœmorrhages, Disordered Sterility, Menstruation, or Suppression of the Menses, Fluor Albus or Whites, or for Debhity arising from any cause, such as weakness from sickness, where the patient has been confined to bed for some time, for females after confinement, abortion or miscarriage, this cordial cannot be excelled in its salutary effects; or in loss of muscular energy, irritability, physical prostration, seminal weakness, decay of the procreative functions, nervousness, decay of the procreative functions is required, it will be found equal if not superior to any compound ever used.

To Pemales—Henry's Invigorating Cordial is one of the most invaluable medicines in the man complaints to which females are subject. It as saints name to brace the whole system, check excesses, and creates renewed health and happiness Less suffering, disease, and unhappiness among ladies would exist, were they generally to adopt the use of this cordial. Ladies who are debilitated by those ebstructions which females are liable to, are restored by the use of a bottle or two to bloom and to vigor.

Nervous Debility, weakness of the system and premature decay. Many of you may now be suffering, misled as to the cause or source of disease. To those, then, who by excess have brought on themselves premature impotency, involuntary seminal emissions, weakness and shrivelling of the genial organs, nervous affection, or any other consequences of unrestricted indulgence of the sensual passions, occasioning the necessity of remouncing the felicities of

Marriage, lessening both mental and bodily capacity, hold! Henry's invigorating Cordial, a medicine that is purely vegetable, will aid nature to restore those important functions to a healthy state, and will preve of service to you. It possesses rare virtues, is a general remover of disease, and strengthener of the system.

As a Tonic Medicine, it is unsurpassed. We do not place this cordial on a footing with quack medicines, and, as is customary, append a long list of recommendations, certificates, &c., beginning with "Hear what the Preacher says," and such like; it is not necessary, for "Henry's Invigorating Cordial" only needs a trial to prove that it will accomplish all we say.
